# COMPANY

## Stengel Steel Concept GmbH

Based in Ellwangen/Baden Württemberg Stengel Steel Concept was established in 2016 from Stengel Küchen GmbH, which had been founded in 2011. This change was a result of expansions and innovations made possible by the material metal. Being a subsidiary of Stengel GmbH, we have all techniques and options offered by metal processing at our disposal while the Stengel Steel Concept GmbH benefits of its own design and production areas.

## Stengel GmbH

Stengel GmbH is a medium sized family owned company with more than 40 years an experience in sheet metal production. With more than 400 employees, approximately 56.000 m<sup>2</sup> of production and storage area, our own powder coating facility and state of art machinery, Stengel GmbH is able to meet the demands of today's market. As well as a large range of minikit chens Stengel GmbH manufactures more than 50.000 products, including wet room units for cruise liners, energy generators, office furniture, shop displays and many more products for well-known companies throughout Europe.

# STENGENL MINIKITCHENS

We believe that a kitchen has to be able to do everything - regardless of size. If you have only little space at home, in your office or studio or place of work we have the minikitchen that suits your needs.

Our minikitchens will fulfill your requirements and wishes perfectly. Almost all models are delivered assembled and ready to plug in and cook.

## Advantages of metal Stengel Minikitchens compared with wooden kitchens:

- high durability
- low installation costs
- timeless style
- space saving
- no material deterioration compared to wood
- simple installation
- no problems with damages caused by water
- easy to maintain surfaces

## Stengel Minikitchen are suitable in:

- student accommodations
- appartement hotels
- holiday homes
- hotels
- construction trailers or mobile homes
- offices
- factories
- retirement homes
- boarding houses
- guest houses
- assisted accommodations
- staff kitchens

# MINIKITCHEN KITCHENLINE

Our **minikitchen kitchenline** is the most popular of our product range.

If you are looking for a simple, presentable and low price kitchen for your home or place of work our **minikitchen kitchenline** is the perfect solution and „kitchenline“ fits in every niche and it is affordable and will not stretch the budget.

New in 2017, the handles of all Kitchenline kitchens are now positioned at the top and, for the coloured variants, are powder-coated in the same colour as the kitchen.

As per standard, the MKM model includes a microwave oven installed behind the door. This gives it a clean and stylish look, when doors are closed.

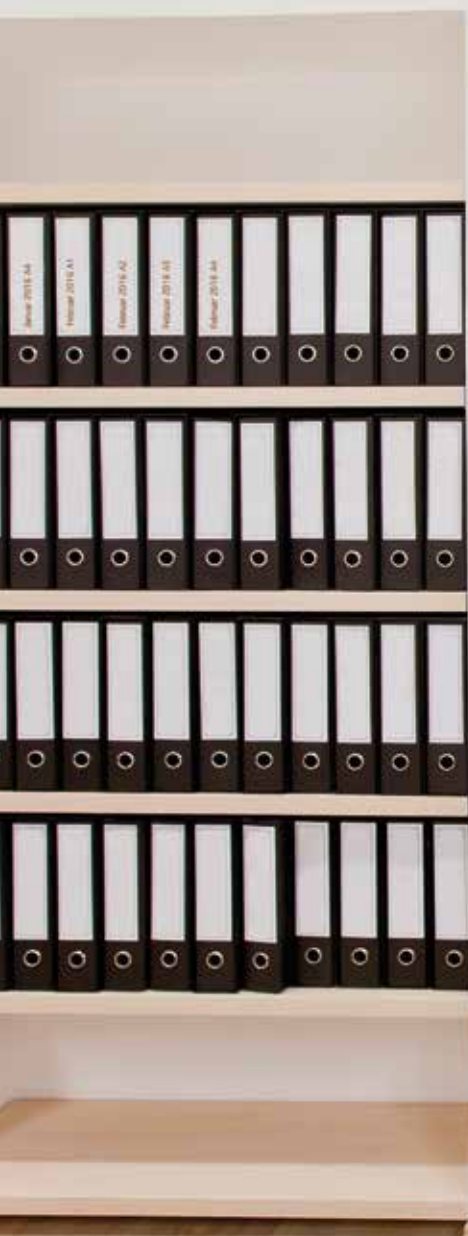

Clever central pullouts, you will find every bit of space is used and offers great storage for all shapes and sizes of pots, pans and food.

All pantry tops which are produced in our factory and can be supplied with a safety timer to prevent accidents and save energy.

# MINIKITCHEN PREMIUMLINE

If you have only little space either at home, in your office, studio or workplace we have designed a compact kitchen especially for your needs.

**Minikitchen Premiumline** is a range of kitchens which you can use as a office kitchen as well as a kitchen at home in which you enjoy cooking and entertaining any time of the day.

In the standard version, our Premiumline minikitchens are available with a modern stainless steel bar handle. Bow metal handles are available.

In all kitchens that include a dishwasher, the appliance is fully integrated. Almost invisible, but still functional and of high quality

We have a stylish selection of taps that can be found in the accessories section that suit both high or low water pressures.

Premium wallcupboards - Compliment your kitchen and maximize storage space with beautiful matching wall cupboards. Now available with three different kinds of handle, also with soft close!

# MINIKITCHEN PREMIUMLINE

For high demands, we offer the right kitchen not only in white and a choice of colours, but also in stainless steel.

If design and finish is important to you then take a good look at the beautiful **minikitchen Premiumline** in stainless steel. You will see the high quality material used in this range that give it a fabulous look and timeless style.

Vertical pull our storage with adjustable baskets offers storage for those larger items.

An eye opener in every kitchen. Our hotplates are equipped with the latest electrical engineering offering both ceramic or induction cooking facilities underneath your pot.

Cooking, storing or washing the choice is yours, incorporate a fridge, dishwasher, oven or microwave.

Most models of the Premiumline series now include drawers with soft close, which are also available in colour.

# SET STUDIOLINE

Are you looking for something unique?  
Would you like your kitchen free standing in a room?  
The **Set Stengel Studioline** offers a minikitchen that meets all of these requirements.  
We have developed the smallest kitchen with all functions and details that everyone needs and fits into the tightest of spaces.

## Studioline D

These two part side panels, stainless steel pelmets above and underneath the wall cupboards together with the stainless steel splash backs make your kitchen an especially elegant piece of furniture.

## Studioline E

Focuses on a simple design with an integrated side panel wall cupboard and splash back are a functional and attractive package.

# MINIKITCHENS IN COLOUR

Fancy some colour?

Our new fashionable colours allow you to create great design highlights or add a fresh splash of colour.

With coloured surfaces on all visible sides, our minikitchen will make for a furnishing highlight in your home also on their own. Metal and stainless steel can create decorative contrasts even in combination with natural materials – such as wood.

Spoilt for choice: Matt or gloss, green, brown, black or red...

Green Apple

Deep brown matt

# PROJECTS

Stengel kitchens are already used in many projects throughout Europe.

They have proven their many advantages like high durability, high quality material, low installation costs, low maintenance costs and a timeless style in environments including student accommodation, hotels, holiday and retirement homes.

Our experience for your project.

We advise and work closely with our clients including architects and planning agencies in all aspects from the design to the completion. Thanks to our wealth of experience in special project work we are able to meet your exacting requirements. Our design team pride themselves on helping our clients meet their specification, budgets and timelines in a professional and helpful way.

# CUPBOARD KITCHEN SKM METAL

## STENDEL METALLIC CUPBOARD KITCHENS FASCINATE

Even with closed front and perfect look, the cupboard kitchen offers all the benefits of a Stengel Steel Concept metal kitchen plus longevity of life compared to a wooden kitchen has to offer.

...open or closed – Metal with a lot of style and charm

Equip your basic model with electrical appliances and accessories that meet your demands. Easy-to-assemble and thus quickly ready for use.

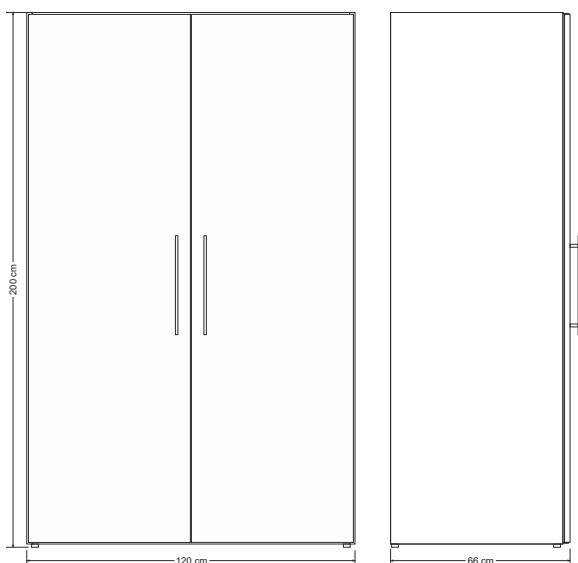

## CUPBOARD KITCHEN METAL SKM 120 - BASIC MODEL

- › Metal cupboard unit in white powder coated finish
- › Double-walled doors and side parts with premium filling, bar handles in matt stainless steel
- › Doors with magnetic closures and safety shut-off for hob
- › Pantry top in stainless steel, including built-in bowl, waste kit, 35mm hole for tap, a choice of solid hotplates, ceramic hob, induction hob or without hob (tea station top)
- › Heat dissipation of the electrical appliances is ensured by a ventilation level provided between the wall and the rear panel
- › Metal lower cupboard with drawer, compartment shelf and storage tray, depending on design and equipment
- › Two shelves, 1x fixed, 1x height-adjustable
- › Height-adjustable feet
- › Only available in colour white
- › Delivered assembled and ready to plug in

# WALL CUPBOARDS WITH MICROWAVE

## GET EVEN MORE INTO THE SMALLEST SPACE

Through our new cupboard with integrated microwave, you now have even more Ways to optimize your **Stengel Küchen**.

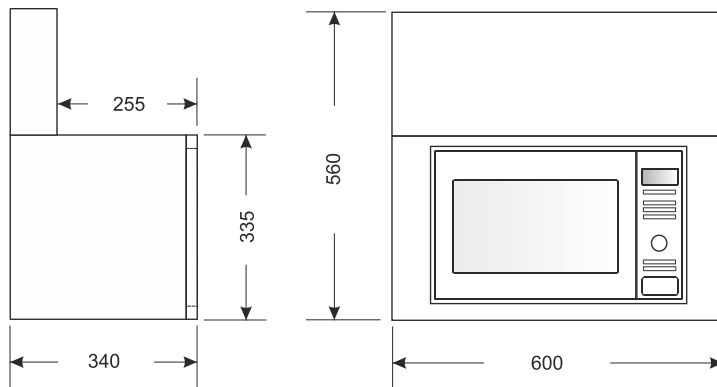

The clever design allows the microwave the correct amount of ventilation and the shelf above gives more storage space. This cupboard is suitable with the use of the stainless steel LG microwave with grill.

The cupboard is finished in either in white powder coated steel or in stainless steel, both these finishes match all ranges of Stengel kitchens.

All wall cupboards are delivered assembled.

# STANDARD PANTRY TOPS

Our **Stengel pantry tops** are certified by LGA-GS.

They are made of rust-free 0,7 mm stainless steel 1.4301.

A deep drawn bowl (340 x 370 x 150 mm), formed drainer and a 35 mm hole for tap, plus a choice of solid electric hotplates, ceramic hobs with front mounted hob controls or tea station top (no hotplates) are all in your pantry top.

Holes for the fridge ventilation of our pantry tops is located on the higher surface.

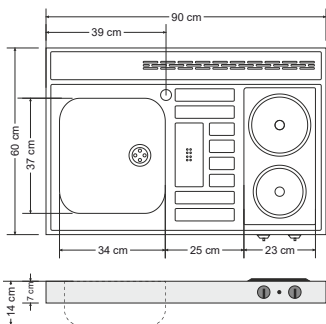

### Electric hotplates:

Hotplates are consisting of two hobs, Ø145 mm with 1000 W and Ø180 mm with 1200 W with integrated heatprotection, 7- cycles switch, checklight for residual heat

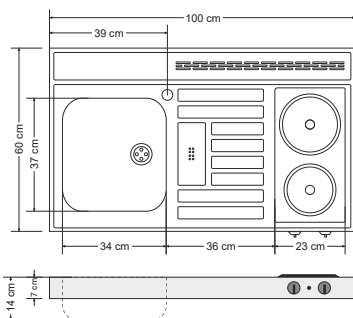

### Ceramic hob:

Hotplates are consisting of two hobs, Ø145 mm with 1200 W and Ø180 mm with 1800 W with integrated heatprotection, instant heat adjustable, checklight for residual heat
