Broen Chemical Waste Products

Broen chemical waste products are specifically designed to enhance the appearance of modern work tops fitted in todays laboratories.

Manufactured from polypropylene, they give a high resistance to most of the chemicals currently used in laboratories.

The standard range of fittings are finished in polished black. However, to special order, the drip cups can be supplied in a variety of colours.

Standard items are normally available on an ex-stock basis, Broen chemical waste products are not only competitively priced but produced to a high standard of quality control (ISO 9001).

BROEN

6008 Standpipe for waste fitting
457mm long.

6013 Outlet adaptor
for 6003/6023, to give
1 1/2" male connection.

6007 Standpipe for waste fittings
200mm long.

A full range of accessories are available for our bottle traps and drip cup fittings.

Our bottle traps are designed to be adaptable for use on either Metric or Imperial pipe size and incorporate an adjustable height by the use of a sliding tube at the neck of the fitting.

Compared with competitor's products this feature gives installers greater flexibility on installation and can also reduce the time and cost of installation considerably.
