

TECHNICAL DATA SHEET

DAN DRYER® PAPER ROLL HOLDER FOR BABY CHANGING TABLE
Paper roll holder Article no. 655

Technical data, article no. 655

Paper roll holder in stainless steel.

The holder is equipped with safety locks at both ends and can thus be opened from both sides. This makes it exceptionally suitable as corner solution as well as for installation in smaller lavatories.

Unlike most other paper roll dispensers on the market the DAN DRYER model can hold most kind of paper rolls. Hence it is not necessary to neither change your type of paper nor switch to another supplier.

The holder is provided with sight holes in the front and at the ends. This feature makes it easy to determine if the paper roll is empty.

The holder is equipped with gas springs for easy operation, when replacing the paper roll.

Dimensions W: 585 x D: 142 x H: 220 mm

Net weight 5.5 kg (+ paper roll approx. 1.2 kg)
