

DATA SHEET

DAN DRYER® WARM-AIR HAND DRYER Type AD Art. no. 253

Machine intended for wall-mounting and fixed installation via circuit-breaker. Fixed installation must be carried out by a qualified electrician.

Installation height from floor to bottom screw holes:

Adults	71 cm
Children	46 cm

Technical data

Connections	220-240 V, 50/60 Hz, Class I ⚡
Total wattage	1200 W
Motor output	adjustable btw. 400 – 750 W
Heating element output	adjustable btw. 400 – 450 W (on/off option)
Noise level	65 – 78 dB
Air volume	1.5 – 2 m ³ /min.
Air velocity	65 – 100 m/sec.
Air temperature	20 - 45°C
Relative drying time	approx. 30 sec.
Dimensions	W 322 x D 185 x H 588 mm
Net weight	10.8 kg
IP rating	IP23
Housing	White, anti-bacterial ABS plastic

Approval

Activation

Touch-free by means of infrared sensor and electronic timer. Stops 1 second after the removal of hands – or after 60 seconds of continuous operation.

Motor type

Commutator motor with carbon brushes. Max. 20,000 revolutions/min.

Protection

Thermostat in both motor and heating element. Furthermore thermal fuse in heating element.

Guarantee

The machine comes with a 2-year guarantee!

Carbon brushes are wear parts and should be expected to be replaced.
