

LOKI

by DAN DRYER

DAN DRYER is a manufacturer and supplier of quality equipment for washrooms, and our products with the familiar wing logo can be found across the world in airports, public institutions, retail stores and more.

Our many years of experience and know-how has been utilised in the development of our bathroom product line, LOKI. The LOKI line derives from DAN DRYER's established design tradition where design, functionality and quality go hand in hand.

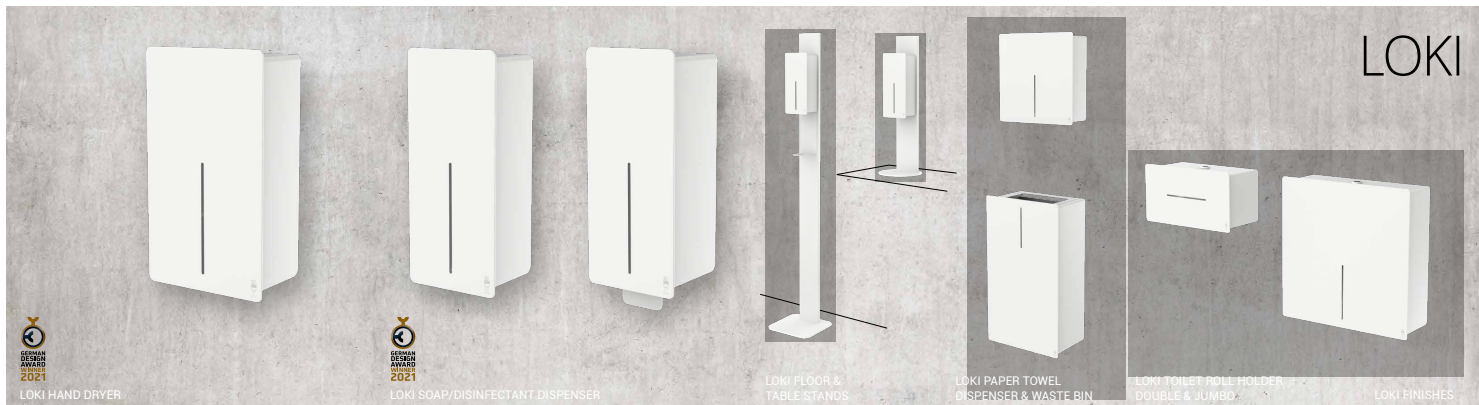

With the LOKI line, our vision has been to create a beautiful and functional design, which complements the surrounding architecture. To achieve this, the design is characterised by clean lines and shapes that harmonise with the surrounding architectural elements such as windows, doors, and wall surfaces.

Repetition as a key word in this award-winning product line. The characteristic line on the case front ties together the product line and creates harmony when LOKI products are displayed side by side.
