

Stainless Design Dispenser

296/297/298

Manually operated dispenser
For liquid soap, foam soap or disinfectant
2-year warranty

Elegant and reliable manually operated dispenser for liquid soap, foam soap or disinfectant. Stainless Design is a complete product line for commercial toilets, in which quality and aesthetics are paramount. The entire stainless product line is made of strong quality materials, featuring unique design with a beautifully arched housing in brushed stainless steel.

Application

The Stainless Design product line combines hygiene and durability with classic elegance to suit any commercial bathroom. The products are designed specifically for use in public toilets where low-maintenance is called for, and equipment must be able to withstand rough treatment.

Variants

Prod.No. 296: For liquid soap.
 Prod.No. 297: For disinfectant.
 Prod.No. 298: For foam soap.

Standard Color

Brushed stainless steel.

Other variants

Available in all RAL colors.
 Container with pump and operating bracket can be replaced if you wish to use the dispenser for either liquid soap or foam soap later.

Activation

Manual operation. Press stainless steel dosage lever slightly backwards for dosage. Dosage stops as soon as pressure is released. Soap container with pump and dosage lever may be substituted with alternative internals, so the unit can be used for either liquid soap, disinfectant or foam soap. Access to the internals of the dispenser is only possible with a special key fitting all products of the Stainless Design series.

Installation

Wall mounting.
