

PRODUCT NAME:

TICK

PRODUCT CODE:

299-6875-01

PRODUCT TYPE:

Washbasin thermostatic mixer

PRODUCT FEATURES:

- Solid brass body with chrome finish
- Ergonomic Y-shape design
- Dual control for maximum comfort
- Ideal for water savings
- Flow volume regulation without temperature level changing
- 1,85GPM flow rate
- ASTM-SC2 standard

PRODUCT DESCRIPTION:

Faucet Tick - thermostatic basin mixers are designed with brief lines and geometric cylinder for simplifying outer shape and presenting absolute image. Combined with environmentally friendly concept to save time and water via adjusting temperature.

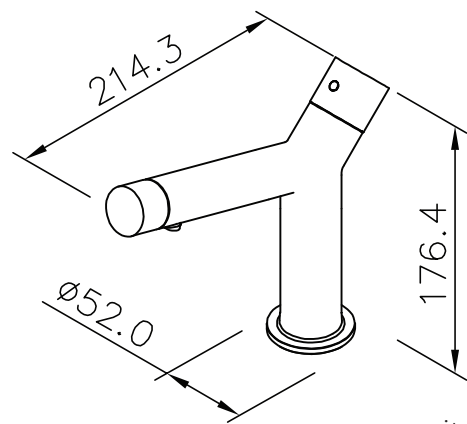

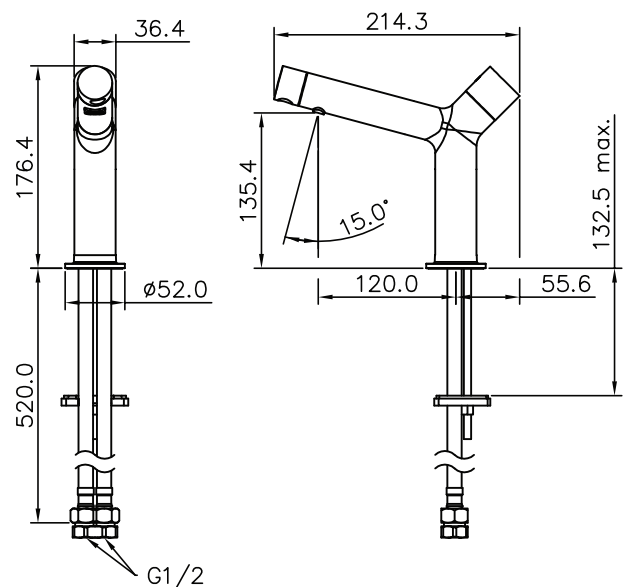

Front-end handle could adjust flow rate; back-end handle is for temperature controlling. Users only need to operate front-end handle after well-adjusted to suitable temperature. Saving time of temperature adjustment is saving water. Curved aerator design fits for spout without extra joints.

WARRANTY:

two (2) years from the date of delivery
