# PURE DANISH DESIGN

## FROST: A WORK IN PROGRESS

Our vision and focus is to provide a broad platform of architectural elements that both inspire and provide comprehensive design and application solutions. Our Danish culture of progressive contemporary design is conveyed through our products in a manner that blends design with function, creativity with solutions.

Frost embraces the concept that Form is nothing without Function. Emphasis has also been placed on material, quality, and service. Frost has been the recipient of International Design Awards and we have realized that our company is a Work In Progress.

This we attribute to the ongoing dialogue with architects worldwide that have been embraced as part of our company culture.

FROST is more than a company: it is a vision, and a quest for excellence.

### BØNNELYCKE MDD

Bønnylycke mdd was established in 1988. Driven by an unapologetic and innovative, Henrik Bønnylycke started his career with the desire to create functional and beautiful objects to enhance the lives of those who decorate. Quickly, he became known as an unconventional architect.

"It could be fun" and "of course it can be done" - are phrases of Henrik Bønnylycke. He has resulted in a comprehensive portfolio of projects and designs - spanning from furniture and lighting to interior architecture and product design. He has received several awards and has been featured in numerous publications and exhibitions.
