

GRAB BARS MEDICLINICS ®

Wall to floor swing up bar, vertical turn Stainless steel aisi 304, satin finish

Código: **BGC710CS**

General description

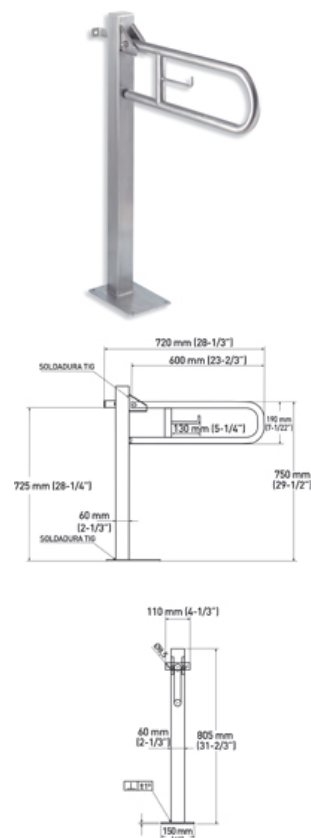

· Wall to floor swing up grab bar, vertical turn, with holder for paper roll, stainless steel AISI 304, satin finish, to place next to the toilet.· Suitable for bathrooms specific for invalids, elderly people or the handicapped.· Suitable to achieve barrier-free accessibility in bathrooms and public spaces.· Model suitable for public use.· Highest durability and rusting resistance.

Components and Materials

· Stainless steel AISI 304 bar, 1,5 mm thick and Ø 32 mm (outer diameter), satin finish. The bending process guarantees the uniformity of the diameter along the bends. The swinging point is reinforced by means of a double tube. A hook bar for paper roll holding is incorporated, as well as a safety anchoring system that blocks the bar in the vertical position and avoids it falling down accidentally.· Stainless steel AISI 304 column, satin finish.· Stainless steel AISI 304 mounting on the floor flange, 5 mm thick, satin finish. Incorporates 4 screws holes of Ø 10 mm for mounting on the floor.· Stainless steel mounting on the wall flange, 2 mm thick, satin finish. Incorporates 2 screws holes of Ø 8.5 mm for mounting on the wall.· All the joining points and supports are made with TIG welding system.

Technical Specifications

Dimensions - 805 x 150 x 720 mm
Maximum force supported (*) - 1112 N
Maximum weight supported (*) - 113 Kg
Flange dimensions - 5 x 150 x 240 mm

Dim.: ±4%

Operation

The bar is manually changed from vertical to horizontal position. This is achieved by slightly lifting the bar in order to free the safety anchor that blocks the bar in the vertical position. To change from horizontal to vertical position, just lift the bar until this remains blocked.

Certificates & Qualifications

ISO 9001:2008.
