

Update software

SI.EFM.0010-20 ENG

Instruction

CINDI Family

Here you can download the latest software for your CINDI Family

You can see your current software when you start your toilet or by selecting "info"

If the version below doesn't appear, we recommend that you update to the latest version.

To do this, follow these steps:

- Click on the file below to download the update
- Open the folders up downloaded
- Save the update file name "cindi.hex" to a USB memory stick
- Turn off the toilet
- Connect the USB memory in the toilet
- Hold down the "confirm selection button" while starting the toilet
- Release the button when toilet software appears on the display

Download the latest software: [CINDI 2.01](#)

CINDI Family - 230V
