TYPICALLY WAGNER-EWAR

LOCATION

Wagner-EWAR has been developing and producing high quality stainless steel washroom products for commercial washrooms since 1974. We sell our products through independent sales agents within Germany and through exclusive importers worldwide.

STAINLESS STEEL

Wagner products are exclusively manufactured using high-quality nickel chromium steel, material number AISI 304 or higher quality. The visible surfaces are satin finished and in addition brushed. Stainless steel is the ideal material for durable and particularly hygienic products. It has a permanent antibacterial effect and can be disinfected – a crucial advantage over other materials.

QUALITY DEFINED

All individual parts are deburred by machine before assembly. For the A-Line, the housing edges are fully welded and attachment parts are fixed with virtually invisible spot welds. This ensures best possible hygiene and operating safety, also during maintenance.

EASY MOUNTING

Mounting is easy and time saving. Fixings are usually invisible and equipped with anti-theft protection; fixing materials are always supplied. For support rails and hinged support rails, suitable fixing kits can be ordered depending on the wall structure.

COST EFFICIENT

Many of our soap and paper towel dispensers are supplied already filled. And afterwards you can permanently save on maintenance costs because our products can be refilled with standard commercial consumables which are also available from us.

CONTINUOUS OPERATION

Timeless design, modular elements and long-term spare parts availability ensure trouble-free use over many years.

A-LINE

The A-Line can be used to equip virtually any commercial washroom or toilet. It is the most comprehensive product line with a timeless, straight style and high-quality workmanship. Fully welded folded edges and virtually invisible connections to attachment parts ensure best possible hygiene.

P-LINE

The design of the P-Line is characterised by vertically rounded housing edges. In contrast to the A-Line, the items are not fully welded but spot welded. The P-Line is suitable as standard equipment for washrooms and toilets in price-sensitive projects.

H-LINE

The H-Line is the entry into the small (home) office with EWAR. Minimalistic, straight style, hygienic. Available as a single device or as a kit, consisting of soap- and towel dispenser and waste bin. Particularly easy to assemble and perfectly adapted on each other.

CLEAR FUNCTIONAL SELF EXPLANATORY

PUBLIC WASHROOMS

At airports, stadiums, cinemas or universities and in other washrooms and toilets with changing visitors, we recommend robust, self-explanatory products in sizes that are adapted to the room dimensions. The focus is on anti-theft protection, low maintenance effort and best possible hygiene.

WA 100
see p. 90

WP 102
see p. 36

WP 1300
see p. 58

WP 183
see p. 66

COMBINATION EXAMPLE FOR PUBLIC WASHROOMS

ELEGANT REDUCED HIGH QUALITY

NON-PUBLIC WASHROOMS

In office and administration areas – places which are usually frequented by employees and not by the public – the focus is on the overall design of the washroom, but also on very reduced designs. Mounting behind mirrors and in the base units are possible solutions.

WP 195
see p. 47

WA 100
see p. 90

WP 166
see p. 57

WP 135
see p. 72

WP 197
see p. 71

COMBINATION EXAMPLE FOR NON-PUBLIC WASHROOMS

PERSONAL SPACE-SAVING COMPREHENSIVE

SMALL WASHROOMS

Design and functionality on a small footprint. Wagner supplies a wide range of products which – in practical combinations – can be integrated to save space without compromising on functionality.

WP 610
see p. 85

WA 195
see p. 47

WA 100
see p. 90

COMBINATION EXAMPLE FOR SMALL WASHROOMS

AESTHETIC
ROBUST
PRACTICAL

LARGE WASHROOMS

Highly frequented washrooms and toilets are equipped with several or larger units according to the room size. Space-saving solutions, such as mounting under tabletops or behind mirrors, are just as suitable as the use of combinations.

WA 100
see p. 90

WP 174
see p. 41

WP 176
see p. 56

WP 154
see p. 73

WP 198
see p. 69

COMBINATION EXAMPLE FOR LARGE WASHROOMS

CLASSIC
FLEXIBLE
DISTINCTIVE

SURFACE MOUNTING

Surface mounting keeps all options open: for placement of the units, for any changes or additions. This mounting type is particularly simple to implement for building renovations and with stainless steel products it offers the advantage of reflecting the colours of the surroundings, allowing good integration.

COMBINATION EXAMPLE FOR SURFACE MOUNTED UNITS

STYLISH SPACE-SAVING EASY CARE

FLUSH MOUNTING

The use of flush mounted units is particularly convenient for new buildings. The frame disappears entirely or partially in the wall, saving space and reducing the cleaning effort. The screw fixed housing front panels can simply be replaced after years of use.

WA 100
see p. 90

WP 208
see p. 37

WP 112
see p. 54

WP 147
see p. 66

COMBINATION EXAMPLE FOR FLUSH MOUNTED UNITS

INTEGRATED REDUCED INVISIBLE

MOUNTING IN CABINETS/ BEHIND MIRRORS

This allows the implementation of "invisible" or "reduced" solutions. On permanently mounted mirror front panels, soap or paper towels are refilled from underneath. Concealed mounting is recommended for non-public washrooms. The supplied self-adhesive pictograms indicate the position of the dispensers.

WP 197
see p. 71

WP 135
see p. 72

WA 100
see p. 90

WP 174
see p. 41

WP 176
see p. 56

WP 198
see p. 69

COMBINATION EXAMPLE FOR MOUNTING BEHIND MIRRORS AND IN CABINETS

INDIVIDUAL SPACE-SAVING COMPREHENSIVE

UNDER-COUNTER MOUNTING

Individually designed washbasins usually offer enough space for integrating our under counter models. This creates very elegant washbasin spaces. Optional wall or floor brackets also allow the units to be retrofitted.

WP 197
see p. 71

WP 166
see p. 57

WP 135
see p. 72

WA 195
see p. 47

WA 100
see p. 90

WP 520
see p. 82

COMBINATION EXAMPLE FOR UNDER-COUNTER MOUNTING

SAFE CERTIFIED COMPREHENSIVE

BARRIER-FREE LIVING

Our complete range for accessible washrooms offers the option of equipping all types of washrooms and toilets from one source. The range also includes extensive accessories.

ON THE WALL

A-LINE
Models for surface, flush, under-counter or mirror/cabinet mounting, manual or with sensor.

P-LINE
Surface mounted models, manual or with sensor.

INSTALLATION

IN THE WALL

FLUSH MOUNTING
Space-saving and easy care.

BEHIND CABINET/MIRROR

MOUNTING IN CABINET/BEHIND MIRROR

Virtually invisible dispensers for mounting behind the wall mirror or opening cabinet.

**TABLETOP
SOAP DISPENSERS**
Close to the washbasin, matching the tap.

ON THE WASHBASIN

REALLY WIDE

opening of the soap dispensers makes refilling quick and easy. The dispensers, made of stainless steel material no. AISI 316L, are particularly corrosion-resistant and also easy to clean from the inside.

HIGHLY PRACTICAL

SOAP, FOAM OR HAND LOTION?

You can choose between disposable bottles or large containers for refillable tanks, regardless of the brand. This allows cost efficient operation of your washrooms in the long term.

CLEAN FILLING

PLUS POINTS

SENSOR DISPENSERS WITH EWAR® E-MODULE

are available as battery-powered or transformer-powered versions.

TOUCH LESS

PATENTED DRIP FREE SOAP PUMP

prevents soap residue on the edge of the washbasin or on the floor.

ONE HANDED

NO TOOLS

MODULAR DESIGN

Maintenance, conversion and replacement are as simple as refilling.

TALL SHAPES

TOWERING
soap dispensers for tabletop bowls

LONG LIFE

**EASY
MAINTENANCE**
The seals and other wear parts can be simply replaced on the tabletop soap dispensers as well.

PLUS POINTS

TWO FOLD

EASY REFILLING
conveniently from above by unscrewing the upper part of the dispenser, with anti-theft protection.

DOWN TOP

**SOAP
BOTTLES**
for tabletop soap dispensers are available in three sizes, usually invisible and therefore made from plastic. A 500 ml stainless steel bottle is available for visible mounting.

**STAINLESS
STEEL OR
CHROME-PLATED**
depending on requirements or to match the tap.

ON THE WALL

P-LINE
Lockable models and the open PP13 – ideal for small offices.

A-LINE
Lockable towel dispensers, electronic paper roll dispensers and hand dryers.

INSTALLATION

FLUSH MOUNTING
A-Line with models for 250 or 500 sheets.

IN THE WALL

CABINET MOUNTING
The WP 175 for installation behind any opening front panel.

MOUNTING BEHIND MIRRORS
The WP 176 for refilling from below.

UNDER-COUNTER MOUNTING
Paper dispensing from the front or top, directly integrated into the washbasin.

BEHIND CABINET/MIRROR

IN THE WASHBASIN

FALL PROTECTION

PANEL RETAINERS

open the front panel only wide enough to allow refilling, or fully if required.

SIZE MATTERS

YOUR CHOICE

of paper. No specific brand is required for refilling. Only the folded paper size has to match.

ON AND ON

EASY PAPER DISPENSING

thanks to the outward embossed opening.

PLUS POINTS

HYGIENE ECONOMICAL

SENSOR PAPER ROLL DISPENSERS

are particularly hygienic and economical to use.

MODULAR DESIGN

All electrical/mechanical and electronic components of the units are installed in such a way that they can be quickly and easily repaired by replacing them.

SINGLE KEY CYLINDER LOCKS

ensure that the paper stays where it belongs. If you do not want a lock, choose the PP13.

EASY SERVICE

SAFELY STORED

ION
THE WALL

P-LINE
Surface mounted models with rounded edges.

A-LINE
Surface mounted models with and without deposit flap and wire baskets.

FLUSH MOUNTING
A-Line models with and without deposit flap.

INSTALLATION

IN THE WALL

UNDER
COUNTER

UNDER-COUNTER MOUNTING
Containers and wire baskets, for direct integration into the washbasin. Matching covers for operation from front or top.

BAG LESS

FABRIC STANDBAGS

made of tearproof, washable, fibre-reinforced material.
Easy to empty by removing the bag – no bin bags required.

WASTE BINS

are suitable for wall mounting, floor placement or integration into washbasins. Fixing is invisible thanks to eyelets in the second grid row. Available in stainless steel, chrome-plated or plastic-coated.

MULTI FUNCTIONAL

PLUS POINTS

WELL CONCEALED

DEPOSIT FLAPS

let waste disappear from sight.

SAFETY

for users and service personnel. All components are deburred inside and outside.

FINE WORK

ALL-ROUNDERS

are the WP 133 (surface mounted) and the WP 134 (flush mounted) with self-closing, fire-retardant deposit flaps. The matching hygiene insert turns these into hygiene waste bins.

ACCURATE INDIVIDUAL CUSTOMISED

SPECIAL DESIGNS

We can do other things, too! To supplement our standard range, we offer special customer solutions: product adaptations as well as completely new designs from one source and within a short time; from sketch to finished product – thanks to in-house design and production in Reutlingen.

SATIN GLOSSY COLOURFUL

ALTERNATIVE SURFACES

Our products have a so-called Duplo coating as a standard: they are satin finished and additionally brushed – the best possible process for an easy care, hygienic surface. Alternatively, we can also supply many products with a highly polished (mirror shine) surface or with powder coating in almost any RAL colour (4 digit code). Whatever you require to match your interior design or your wishes.

HIDDEN
AWAY

CONCEALED RESERVE ROLL
reduces service work, remains hygienically concealed and drops down automatically when the other roll is finished. The empty cardboard roll remains in the unit (WP 164/167).

ON
DISPLAY

CLOSED HOLDER
with cover, lockable. Hygienic and with tear-off edge.

OPEN HOLDER
without cover, reduced to the essentials.

FREE
TO MOVE

HOLDERS AND BRUSHES

LARGE SCALE DISTRIBUTION
from the WP 163-S. It offers one toilet paper roll for use and three more concealed as spares; these automatically drop down when needed.

AWAY
STORED

STEAD
FAST

TOILET BRUSH SET
The brush virtually floats in the stainless steel holder which is also easy to clean.

DUAL USE

INTEGRATED BAG DISPENSER
Our hygiene waste bins are available with and without an integrated sanitary bag dispenser.

SIGHT OUT OF

INSERTION SLUCES
in the sanitary bins WP 177-1 and WP 179-2 discreetly conceal the contents.

BOTTOM LESS

HYGIENE INSERT
made of plastic, with internal radii. Easy to remove from below by lifting up, for long term hygiene.

GENTLE NATURE

GAS PRESSURE SPRINGS
ensure easy opening and closing of our Nappy changers.

A SMALL FOOTPRINT
is all the nappy changers need for wall fixing. They are TÜV tested and certified.

GUARDIAN ANGEL

HYGIENE AND BABY

SQUEAKY CLEAN

SURFACE
made of polypropylene, molded. It never feels cold, is free from harmful substances and can be disinfected.

 - For (hinged) support rails
 - Permanently welded

BA 017 pre-installed fixing plate
 - For retrofitting of a (hinged) support rail

BA 063 flush device
 - For large and small flush volume
 - Compatible with 868.4 MHz systems

BA 020 flush and call devices
 - Compatible with 868.4 MHz radio control flush system

BA 025 call receiver
 - Compatible with 868.4 MHz systems

BA 250 removable back rest for toilet seat
 - Includes 500 mm rail
 - Surface made of black PU
